

Plaintiff's Reply to Defendant Twitch's Opposition to Plaintiff's Motion to File First Amended Complaint

Apple and Google are part of the same Twitch lawsuit, because Twitch is hosted on both App Store platforms. Without xQc money laundering \$685M on stream, or Pokimane selling her "undying love and appreciation" as a subscription product for 7 years, there would be far less justification to reverse engineer and exploit Apple and Google's operating systems and App Store distribution infrastructure.

Moreover Apple and Google ignore Twitch's millions or more victims, to pad their corporate bottom line, and thus should be punished for illegally violating Article 6 of the US Constitution for applying an illegal 30% tax on app developers. Microsoft in contrary only impose a 15% fee, and Apple and Google have not proven they deserve double taxation in violation of Federal anti-trust and California UCL laws.

Furthermore, the Plaintiff Bo is very proud to be labeled a "stalker and harasser" of Twitch employees (criminals), as labeled by Twitch counsel or witnesses, sometimes while violating perjury statutes.
